GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

The Era of Pacification in Mississippi.

NEW YORK, May 11.—The following correspondence passed between Mrs. Chisholm and Gov. Stone of Mississippi:

To Gov. J. M. Stone, Natchez, Miss.: I am just from Judge Chisholm's in Kemper county. Both he and his daughter are suffering very much from wounds and constant threats from the mob. It is freely asserted that Judge Chisholm will neither be permitted to live at home or leave the country alive, which threats he and myself fear will be carried out unless protected by the State government. A constant watch is kept upon the house and a stranger going there is promptly asked his business and kept under surveillance. Mrs. Chisholm was compelled to obtain a permit from the leaders of the mob to bury her son slain in jail. From motives of humanity, I have followed you to this place with the following letter from Mrs. Chisholm:

To Hon. J. M. Stone, Governor.—SIR: Believing you to be humane and desirous of preventing a further effusion of blood, I most humbly and earnestly appeal to you for aid in protecting the life of my husband and children until such time as I am able with those of them whom God in His mercy may spare to me, to leave the country and our home. If you can aid me in behalf of my wounded and dying husband and daughter, I would ask that Capt. M. Shaughenessy, of Jackson, be authorized to organize a body of men sufficient in large to protect and remove us to some place of safety. Respectfully, MRS. W. W. CHISHOLM.

No time should be lost. Dispatch me here.

M. SHAUGHENESSY.

Gov. Stone replied to Shaughenessy.

I cannot consent to your proposition to go to Kemper with a body of armed men. I will return as soon as possible.

Sarcastic Dispatch from Packard.

NEW ORLEANS, May 10.—Ex-Gov. Packard to-night sent the following dispatch to Senator Blaine:

The overthrow of the lawful State government was appropriately celebrated to-day. Detachments of the army and navy of the United States participated with the White League of Alabama and Louisiana in the celebration of Democratic success. Did poetic justice require that the honors of this achievement should be thus equally divided? In the absence of the Commission, Gray was accorded the post of honor to the Blue, and asked no apology. The custom house and postoffice were closed in admiration of the event. It is probable that United States interference will be required hereafter. (Signed) PACKARD.

Providing Custom for Themselves.

PITTSBURG, May 10.—The large six story brick building in Allegheny, occupied as a manufactory by the Excelsior coffin works of Hamilton, Lemon, Arnold & Co., fell with a terrific crash at noon to-day. Fortunately but few persons were in the building at the time, these, with one exception, escaped, although some of them were severely bruised and cut. Eugene McGarry, making some repairs on the building, was buried in the ruins. Up to midnight his body was not recovered.

Reception to Hayes.

PHILADELPHIA, May 10.—The reception at Mr. Steele's to-night was a grand ovation to the President. The grounds were beautifully illuminated. Porches were extended out in the nature of annexes, providing ample accommodation for the entertainment of 1,000 of his guests who were present. At 11:15, the President took a special car in waiting and went direct to Washington. At the station he met a perfect ovation. In response to calls he appeared, and thanked the assemblage for the compliment extended, and expressed appreciation of their approval of his course and that of his party.

Handsome Testimonial.

PHILADELPHIA, May 11.—A number of citizens here have presented to the Hon. A. T. Goshorn, director general of the International Exhibition, a valuable library consisting of 5,000 volumes, in testimony of their respect for his valuable services during four years of exhibition work in this city. The presentation took place in Independence Hall to-day in the presence of a large number of ladies and gentlemen.

Sticking to their Purpose.

LOUISVILLE, May 10.—The city council to-night refused to reconsider their action upon the protest by the religious community by which the ordinance creating Derby days was passed and endorsed by a vote of 2 to 1 in their former legislation.

The Mormon Question.

NEW YORK, May 11.—The *Herald's* Salt Lake special says: At the present time there is more real danger to the tenure and necks of Mormon chiefs in this Territory than ever impended over them before, and they strive by all means available to stimulate their followers and drive the people of the United States. During the last three weeks counsels of the priesthood throughout Utah have been belligerent and orders from commanders of the old Nauvoo Legion have summoned that body to be ready for action. Brigham Young has intimated to an immense congregation of Mormons at the Tabernacle in paraphrase, which necessity only could have tempted him to use, a willingness that they should be ready to defend him and the church from impending danger. Yet he dislikes to have this meaning conveyed to the outside world while the Mormons are arming. He desires the authorities at Washington and people beyond Utah to believe they are organizing merely for a holiday, and newspapers here which are run in the interest of the Mormon church take the opposite view as sensational. Gov. Emery, who has had his attention called to these facts, still deliberates whether or not to take action in regard to them. One crucial before him is that the Nauvoo Legion is a military organization utterly dissimilar to any other in the United States, composed exclusively of Mormons who were branded for treasonable resistance to the United States troops under Gen. Johnston, and it was subsequently disbanded or rather forbidden to assemble without his order or by Gov. Shafer in 1870.

The New York *Sun* says Whitney, a prominent speculator in mining stocks, failed yesterday. He was formerly an operator in San Francisco.

Treasure Shipments.

NEW YORK, May 11.—To-morrow's steamers will take out a large amount of gold coin; one banker alone intending sending a hundred thousand dollars. The present shipment of gold is to pay for bonds sent hither from London, and some of the German bankers were sellers again to-day for London. The account of a dispatch reporting the Turks harrassing the Russians in the latter's attempts to cross the Danube assisted the rise in gold.

NEW YORK, May 11.—Specie engagements for Europe to-morrow, up to noon, $750,000 gold.

The Boss Liquors Up.

Tweed yesterday laid in a new supply of liquors for the entertainment of his visitors at Ludlow street jail. This would seem to indicate that he does not expect to leave his present quarters for a week to come.

The Stevens Battery.

The *Tribune* says the famous Stevens battery will soon leave American waters under command of Capt. Samuels, and will be sold to Russia, either on the high seas or after arriving at England or France.

The N. Y. Customs Investigation.

NEW YORK, May 11.—In the custom house investigation committee to-day a letter from a naval officer, A. B. Cornell, written at request of Jno. Jay, was read. It states that the subdivisions in the custom house which are most liable to violate the law, accept gratuities and conspire in frauds are the entry, liquidating and warehouse clerks. They are liable to these improprieties, because rivals in business seek to control these clerks by bribery under the name of gratuities. The clerks are but human, and where there is a coincidence of temptation, frailty and opportunity, there can naturally be but one result. There is difficulty in suggesting an adequate remedy for such abuses, since they originate with these over whom there is no official control. The revised statutes provides a penalty if they could be detected. Careful selection is recommended, good moral character, official supervision which would reduce the temptation and vigorous punishment of impropriety.

Surveyor Benedict testified that the number of nightwatchmen had been reduced, but subsequently of necessity restored.

Mr. Jay read a petition of custom house brokers and notaries that clerks be debarred from doing notarial business. It delays work.

Church Union.

BALTIMORE, May 11.—A convention of the Methodist Church and of the Methodist Protestant Church met to-day to consider a basis of reunion. Several Southern and Northwestern States are represented. No decisive action was taken.

In the general council of the Reformed Episcopal church to-day the report of the general committee, composed of bishops and others, was adopted. It recommends that the presiding bishop be paid $4,000 salary, with $1,000 traveling expenses. The committee on synod of Chicago reported that the synod was legally and canonically formed, and the committee therefore recommended that said election of bishops be confirmed. Resolutions were adopted amendatory of the constitution, so as to make those holding the office of Episcopal bishop of the Reformed church, without temporal designation and jurisdiction.

Pinney Measured by His Own Standard.

NEW YORK, May 11.—The *Herald's* Washington special says the story purporting to be Pinney's confession, recently published simultaneously in New York and San Francisco, was prepared in San Francisco, and was duplicated and a copy given to the papers there to be withheld until word was sent them, it was also to be published in the East. The article was shown around Washington a week or ten days ago, and the question asked what it would cost to get it published in the New York papers. It bears within itself the evidence that it was not the work of Pinney. As a confession, it slops over and makes Pinney not only a knave but a simpleton and fool of the most ridiculous kind. No wonder San Francisco papers say that Pinney protests against the publication as premature.

WASHINGTON CITY.

The Whisky Ring.

The *World's* Washington special on the whisky ring suits, says in the case of the St. Louis ring it is denied that the government made any promises of release from an counts which were due, or agreed on any compromise whatever. This, if adhered to, will insure the collection of nearly $500,000 for the government in that city alone.

Douglass' Lecture.

The lecture of Fred Douglass delivered in Baltimore on Washington City is exciting no little amount of local indignation. There is some talk of getting up a petition to the President asking him to remove Douglass. In the lecture he characterized the old residents as indolent and ignorant, declares the city filled with duplicity and servility, and occupied by people who endeavor to get something for nothing; who wear their hats pulled down over their eyes like thieves and robbers, and do this, it is mildly added, to give them a Congressional look. He charged them further with aiding treason, of standing between impeachment and Andrew Johnson and of hatching the plot that killed Lincoln. In slandering people of this district the lecture could hardly be excelled, and it would pass unnoticed but for the high official position which the lecturer holds.

The Postal Appropriation.

The *Times'* Washington special says the smallness of the appropriation for the postal department threatens to be the most serious of all those for which the forty-fourth Congress is justly responsible, since it may result in seriously crippling the postal service and perhaps in suspending that service entirely in some branches. The public printer to-day notified the Postmaster-General that the balance of this year's appropriation standing to his credit for printing is less than five thousand dollars. The peril of the position will be appreciated when it is known that the average monthly cost of supplying the postoffice department with blanks is about $11,000.

Silver Coin.

WASHINGTON, May 11.—Silver coin may now be obtained by any one without the expense of transportation, upon deposit of notes or fractional currency with the U. S. Treasurer or National Bank Depository, or national bank notes may be sent to the U. S. Treasurer free of expense, and silver will be returned from the mint therefor. Silver, however, can be sent in multiples of $1,000, and remittances or deposits should be made in like sums.

Fred. Douglass Stirs up Washington Society.

Petitions are circulating among the people of this city for the removal of Fred. Douglass from the position of the Marshal of the District, because of the animadversions of the people of Washington, alleged to have been made in a recent lecture delivered by Douglass in Baltimore. It is reported to-day that Columbus Alexander, one of the most prominent bondsmen of Douglass' has asked to be released from the bond.

TERRIBLE ACCIDENT.

Falling of the Roof and Dome of a Court House.

Twenty-five Men Killed or Wounded.

Another Architectural Slaughter.

ROCKFORD, Ill., May 11.—This city was thrown into a deep horror at 11½ o'clock this morning by the falling of the inner walls of the north side of the court house. Several men are known to be killed and others badly hurt. Others are still buried beneath the ruins. Business is suspended and great crowds are in the vicinity of the disaster waiting the result of removing the stones.

CHICAGO, May 11.—A *Tribune's* special from Rockford, Ill., says: "A pall has fallen over what this morning was a happy community. The Winnebago county court house which this morning, when our citizens commenced the day's labor, was the pride of their hearts, is now a desolate monument of criminal incompetency. Some families which bade adieu to their loved ones this morning received their corpses to-night disfigured by the ruins from which they were drawn piecemeal. The building was not under roof, and the massive stone cornice which preceded the roof was to-day being put on. Just as the custom was being placed in the dome of the main pavillion the brickwork between the iron and stone gave way and the entire dome and the interior walls of the structure came tumbling down with a terrible crash that was heard nearly a mile away. A brief description of the structure will aid in understanding the accident. The style of the building is French Venetian of the Rennaisance, designed by Henry S. Gray, of Chicago. The contract for building was let to W. D. Richardson of Springfield, who, in the spring of 1876 began work. It has two pavillions and a center dome over the front entrance. The two pavillions on each side rise about 30 feet above the level of the cornice. The dome is 119 feet from the ground, supported by the front walls. On the north side the columns are from 10 to 12 inches in diameter. On the inner side these columns rest upon a brick wall going up from the ground floor to the floor of the court room. The walls were about 30 feet high, and it appears were entirely inadequate to hold the immense weight of iron pillars and the masonry of the dome which rested upon the pillars. Upon the top of the iron columns was a wrought iron girder, upon which which was laid the veneer and brick of the dome. It appears that the lower brick walls were crushed by the weight of the upper masonry, and crumbled like so much rotton mortar, bringing with it the entire interior of the building, taking all the rafters, the corrugated iron ceiling of every room with its concrete filling. The iron joist and the scaffolding came down in one terrific mass, bringing with it nearly all the workmen who were operating upon the top of the building at the time of the accident. There were from twenty to twenty-five men at work. The accident happened at exactly 11:30 A. M. The whole massive stone top of the dome fell with a terrific crash toward State street. A man named Timothy Flanaghan, who was just putting in the keystone of the final cornice, jumped for the guy rope of the big derrick in front, but, missing his aim, fell the distance of 120 feet to the earth and was dashed to pieces. At this time but few persons were upon the scene. The mass of human beings, with the exception of four or five who jumped from the windows, fell inside the tottering walls and were buried in the debris. The whole structure looked as though it would fall, and those assembled were appalled and knew not what to do. To go near enough the structure to rescue those mangled and bleeding in the ruins was hazardous in the extreme, but brave men went fearlessly to work before the dust cleared away, and commenced to extricate the dead and dying. Indescribable horrors ensued. Men lay terribly mutilated beneath the rocks, shrieking for assistance that was only rendered at the risk of the bystanders' lives. One unfortunate man named Wm. Glass was extricated, but one of his legs was left beneath a ponderous stone. He soon expired in great agony as he lay upon the green sward in front of the courthouse. A negro jumped from a window sixty feet from the ground, and though badly injured will probably recover. Within ten minutes after the disaster no less than four bodies were recovered by the utmost superhuman efforts of the immense crowd that quickly gathered. The city surgeons were promptly on hand rendering great aid to the wounded, who were carried on stretchers to the near hotels. A Swede named Andrew Bildahl, had his head split open but the wound was closed and the victim taken home and may live. The anguish of the dying was heart rending. Workmen's wives and mothers were soon on the spot. The air was filled with sobs, wailing and moaning, and the looker-on was sickened by the sight on every hand. Up to 7 P. M. the following list of victims had been obtained:

Fred Haugh, dead, remains yet in building; A. Haugh, dead; A. Lucas, engineer, leg broken, badly injured; T. Hayes, engineer of lower floor, badly hurt, may recover; Wm. McInnes, leg broken, elbow injured and scalp wound; J. F. Peck, mortally injured; J. Pipe, dead; A. Hollendeck, dead, remains in building. George Smith very badly hurt J. Warren, missing and probably dead; Geo. Goss, colored, dead; Hugh Eldrens, hurt in leg and face; Timothy Flannaghan, dead; Linbolu, dying; J. W. Lawson, colored, reported dead; A. Beldhall, badly injured; may recover. H. W. Ames was working on the southeast corner of the building. The left rafter gave way, and he fell down to the first story, but escaped from the second story window, head badly hurt; Benj. Brown, colored, slightly hurt; Isaiah Donnelly two severe scalp wounds, and cut in the head; Hugh Eldreds, contusion on the leg, and face hurt; George Smith, neck and head hurt; Cicero Dixon, contusion on the thigh. Donnelly is severely wounded, but all those wounded will probably recover. C. Harris, of Dixon, a carpenter injured internally, and so badly hurt that his leg must be amputated, and he will probably die.

Hollenbeck, whose body is in the ruins, leaves a wife and four children, who depended on him for support. W. D. Richardson, contractor and F. E. Latham, superintendent, had a narrow and thrilling escape. They were both on top of the dome of the building before it fell, and were talking of the probability of it falling when they heard a crash and rushed at once for the west wall, where they stood when the dome went down. Had they been a moment later, both must have perished. When the dust cleared away both were standing on the wall. A cry of fire was raised, but no fire broke out. At 8:30 P. M. the excavators have just taken out the dead body of Warren, the negro. It is terribly mutilated. The old courthouse is turned into a morgue and sad scenes are constantly occurring. Relatives and friends stand weeping over the bodies of their dear ones, and children look mournfully at what they formerly knew as their fathers. A coroner's jury of respected citizens has been called, and this afternoon identified the dead bodies. They meet to-morrow at 9 A. M., and will make a thorough investigation. Clergymen have arranged for a union meeting on Sunday evening, to hold memorial services. Subscription for the relief of families of the wounded and dead will be started. It is believed that at least 10 or 12 lives have been lost, and that about 14 persons are more or less injured. The loss to the building will be $50,000 to $65,000. The entire front must come down to the frieze and the plans will probably be changed. Capt. Latham lays the blame on architect Gay, whose instructions were followed out implicitly. Richardson will not talk about the matter. The papers to-night place the blame on different shoulders. Digging for the missing is still going on.

VIENNA, May 11.—The opinion on the spot seems to be that the Russian reconnoitering expedition to Giiacot is a forerunner of a serious attempt to cross over in force and capture Matchim. A Bucharest correspondent reports that Russian commanders are evidently taking every precaution to bring their armies to the Danube without fatiguing the men or animals. The condition of the troops shows their efforts are successful.

Negotiations between the ministry for foreign affairs and Austrian and Hungarian ministers of commerce relative to the declaration of neutrality, are nearly complete. The ministers of commerce will issue identical declarations enjoining neutrality of subjects of their respective countries. It is improbable that any other declaration will be made on the part of Austro-Hungary besides these notices.

EDINBURG, May 11.—Not a single journal in Europe has received permission from Russia to send correspondents to the headquarters of the Russian army.

Trouble at Home.

CONSTANTINOPLE, May 11.—There is serious differences between the Turkish chamber and the government. The chamber is very angry at the Porte's acceptance of the German Protectorate over the Russian subjects in Turkey. It also desires to impeach Lowty Pasha, the Sultan's brother-in-law, for embezzlement, and Rediff Pasha, the war minister, for maladministration. Rediff, who is all powerful, is determined to crush the Parliament before it can harm him. The Porte wanted to proclaim a state of siege in Constantinople so as to be able to close the Parliament, but it is now satisfied it can close the Parliament without resorting to such measures. There is reason to fear that Rediff and other enemies of free government will triumph.

THE STRANDED STEAMER.

The Dakota's Passengers—Details of the Disaster.

LONDON, May 11.—The passengers and crew of the stranded steamer *Dakota* reached Liverpool at midnight. The *Dakota* got ten miles out of her course through miscalculation. She was in charge of the captain, but had a pilot on board co-operating. The error of position had been discovered before the vessel struck, and land was distinctly sighted, when the engines were reversed and the vessel glided on upon a smooth rock, where she lay with her bow considerably elevated. The passengers' baggage and kits of the crew were mostly saved. The captain and some of the officers remained by the ship, but as the water covers portions of the after part, the hope of saving the vessel and cargo is not great. As soon as the *Dakota* struck, distress rockets were fired and the coast guard promptly responded, throwing a line to the vessel. Presently a boat was launched from the ship. Then the shrieks of the women and children were heard. The passengers were handed down one by one from the bow of the steamer to the boat. Coming toward shore, the current setting around the projecting headland was found very strong. The boat was borne on the breast of huge billows and dashed violently against the rock. The screams of the women as the boat struck was awful to hear. All supposed the boat party was lost, but the little craft drifted back from the shore a few moments, until she was finally flung high and dry from the crest of a wave on top of a high broad and solitary cliff. Meantime a buoy had been attached to the line and sent to the ship's side. The women were secured, placed on the buoy and safely hauled ashore by the strong armed coast guardsmen. Other boats put off from the steamer after the buoy, and made several trips filled with the crew and male passengers, and in a comparatively short time all had been landed. The captain and a few officers and seamen remaining with the vessel. At the coming of daylight, the mist which had enveloped the steamer cleared away, and another large steamship was observed passing close at hand. Rockets were at once set off from the *Dakota* warning her off the coast, and thus probably avoiding another disaster. The *Dakota* and cargo are heavily insured in Liverpool and London. The vessel lies in an exposed position with a list to seaward of 45°. There is 15 feet of water over the taffrail, and at low water one third of the deck is submerged. Salvage association agents are at the wreck with tugs, pumps and gear for getting out the cargo.

The steamship *Dakota* and cargo are heavily insured in the Liverpool and London. The ship is valued at £90,000. It is the most serious marine disaster, from a monetary point of view, that has occurred for two years.

SAN FRANCISCO, May 11.—The *Post* publishes the following communication this evening in its stock article:

Ed. Post: It is quietly rumored that negotiations have been going on several months between representative English capitalists and managers of eight or ten mines on the Comstock for a controlling interest with the idea of properly developing and introducing them to the London market. This negotiation includes eight or ten mines between Alpha and Sierra Nevada. These parties propose to furnish money for the development under their own management for a contingent interest in shares. (Signed) CONSTANT READER.

Thirty Mile Race.

The Turf.

SAN JOSE, May 11.—The trot between Occident and Bodine for $2,000, mile heats 2 in 3, failed to bring out but an average attendance. The day was clear, with a stiff breeze from the north; track in splendid condition. The horses were called at 3 P. M., Budd Doble holding the ribbons over Occident and John Splan as driver of Bodine. At the second scoring the horses got off, Occident having the pole. The half mile was reached in 1:12, Occident two lengths ahead. Bodine broke and closed again on the home stretch, but trotted squarely ahead, coming in a length and a half ahead in 2:26.

On the second heat the horses got off at first score. Occident went ahead and passed the quarter five lengths ahead; passed the half in 1:09½, the "wonder" eight lengths ahead. Coming down the stretch Bodine run half way, and near the line Occident broke, but got his feet and passed under the line in 2:24, winning the heat by six lengths.

Occident won third heat and race in 2:21½.

BRITISH COLUMBIA.

War Feeling in the Province.

VICTORIA, May 11.—The outcry against the defenseless condition of British Columbia with a Russian fleet within four days' sail continues. The *Colonist* points out in case of a sudden attack by the Russians the dockyards with its $2,500,000 worth of stores and the great island coal-producing districts, on the latter of which the British fleet in the Pacific must rely for ammunition and coal, would fall easily into the hands of the enemy. It continues that Victoria should arouse herself to the emergency of the situation. The time is rapidly approaching when all able-bodied men will be called upon to stand shoulder to shoulder in defense of home and country. Grim visaged war is nearer at hand than many can bring themselves to believe, Great Britain is almost certain to be embroiled in the war now raging in the East, and British Columbians will not attempt to evade the responsibility that attaches to them as British subjects. Our situation is such as to expose us to attack almost immediately after a declaration of war. It is right, it is proper, it is necessary that early steps shall be taken to prepare the place for defense by the enrollment of every available man. It has been suggested that a public meeting be called by the mayor to devise means for self-protection and to assist the Imperial forces as far as possible in maintaining the honor and integrity of the nation. We feel confident that there will be a unanimous response to any call to arms that may be made on the population of Victoria.

CONCILIATION.

Notes of thanksgiving and joy come from the political party in Louisiana, in whose hands the government of that State has been placed by the influence of the Hayes Commission. By what means the triumph was gained which is celebrated with songs of praise to the Almighty, is familiar enough to all who have taken notice of the bloody events in Louisiana for the last ten years. Those who join in these demonstrations of thanksgiving now, have things all their own way. There is no opposition. The Republican party at last has been entirely suppressed. Peace reigns in Louisiana. So it did at Warsaw. But there are still some discordant notes. Reconciliation, the President and the country are informed, is not yet complete. In Mississippi one prominent Republican still threatens the public peace. As the "last man" of the opposition, he appears to be a terrible menace to the dominant party of the State. With praiseworthy desire to establish complete harmony, they have made an effort to kill him, and he lies grievously wounded in his house, watched and beset by those who desire to finish and make a clean job of the work of conciliation. In South Carolina also there is a little circumstance that ruffles the temper of the successful party and mars the prospects of perfect peace. A disposition is shown by the authorities of the United States to investigate the massacres which were perpetrated to place the State government in the hands that now hold it, and if possible, to punish the offenders. It is manifest that this is not the way to reconciliation. The President, therefore, is appealed to by advice, entreaty and remonstrance, to use his influence to stop the proceedings. Such action, he is informed, is necessary in order to carry out his policy of good will toward the South. To continue these prosecutions, what is it but to punish the leaders of the party that has wrought the deliverance of the South, for the methods by which that deliverance was accomplished? Therefore it is that the thanksgiving which is heard in Louisiana is changed into far other notes in South Carolina. An impatient and suffering people are asking why the last obstacles to peace are not removed. Is reconciliation a mere word, an utter mockery? What is all that has been done worth, if revenge is to be executed on a people for killing a few hundred of their opponents in order that they might suppress an adverse majority and get the government into their own hands? And what security is there for the continuance of peace and good will so long as troublesome persons who will persist in trying to maintain an opposing party are allowed to live in the States now rejoicing over their deliverance?

One thing more is to be done in name as it has been done in fact. It is notorious that equal suffrage has been suppressed in most of the Southern States. Taking courage from this fact, the leaders of the reaction against the results of the war and of reconstruction are now demanding loudly that the claim of the general government to enforce the rights conferred on the colored race shall be distinctly renounced. "Voting," says the New York *World*, "must be put back to where it was, as to the Federal government, *ante-bellum*, and in 1860." In the States South this has practically been done already; but it is announced that it must also be done in distinct terms, by renunciation on the part of the government of the power heretofore exercised to enforce the citizen's constitutional right. All legislation to carry out the constitutional amendments must be repealed, to further the cause of "self-government" in the States principally affected by them. Otherwise in those States in which the fifteenth amendment has been overridden, there will be continual attempts to enforce the laws under it, to the prejudice of the public peace. The signs are that on this question there is to be a direct issue before the country. For the attainment of this object Northern Democrats are making a tender of help. It would be unfortunate, indeed, to see these questions brought again into the bitter disputes of partisan warfare. Throughout the Northern States there is a general weariness of the contests of partisanship; but the old issue, if forced again, will be fully met. Conciliation is a very good thing. We were glad to see the President withdraw the troops from the State Houses; though it has seemed to us that he went too far when he encouraged the Commission he sent to Louisiana to undermine Packard's government and give the opposition to understand that they had the countenance of the administration. This, though it was none of the President's business to decide the controversy as to the Governorship, was done indirectly by him through the Commission which prevailed on Packard's supporters to abandon him. It was a short way out of a present difficulty. But to those who, while conceding that Hayes' title to the Presidency is legally perfect, are yet unable to see that it rests on better moral foundations than the title of Packard to the Governorship, it does not seem altogether just. Yet the withdrawal of the troops was a proper and necessary thing, not for conciliation merely, but to remove from offensive prominence the spectacle of governments supported palpably by military force. Conciliation ought to work both ways. There should be an element of reciprocity in it. It is not reassuring just at this time to receive notice from the organs of a powerful party that an attack will be made on the muniments of those rights conferred by the constitutional amendments and the legislation enacted under them. In that description of conciliation that demands everything and yields nothing, there is not much hope of satisfactory accommodation.

RAILROAD MATTERS.

It is well known that Seattle has never been pleased with the management of the Northern Pacific railroad. The town does not view with satisfaction the present and prospective movements of the company, and its citizens, at a public meeting held recently, presented their objections in a formidable bill of particulars. It was asserted, and the same was set forth in the resolutions adopted, that nearly all parts of Washington Territory have suffered great injury in consequence of the withdrawal in favor of the company of odd sections of the public lands from pre-emption and settlement; that the company has no right whatever to any lands north of Tacoma, where the terminus of the road has been established; that the route by the Skagit Pass, designated for the branch across the Cascade mountains, has been abandoned pretendedly for the Nachess Pass, which change the company has no legal right to adopt, and that, moreover, it is a notorious fact that the company does not intend to build the branch even by the pass last named; that in building a local coal road up the Puyallup the object is to obtain the full benefit of the land grant on said line, amounting to 793,600 acres, and to make the selections north of the adjusted limits on the earned lands of the main line, and that the whole country ought to use all efforts to defeat this attempt.

This looks like a formidable array of objections; but there may be a misunderstanding or mistake. It is probably one of those cases common in the construction of railroads in which local interests are in conflict with the main enterprise or design. We believe the company has not abandoned the idea of the branch over the mountains from Puget Sound. To secure first the main line by way of the Columbia river, is the way to make sure of serving the interests of all parts of the country concerned in the road. This will undoubtedly be attended to when the bill to continue the grant shall come before Congress. No true representative of Oregon's interests will let this pass unimproved. On this land grant depends depends nearly the last hope for aid. With an Olympia paper we agree that "it would be a matter of justice to the people of the northern coast for Congress to grant the road a subsidy in lieu of its land grant that would insure its early construction and at the same time leave the public lands open to settlement, but that is out of the question. The Central and Union Pacific stole the treasury so nearly empty that nothing is left for other deserving objects of internal improvement."

The San Francisco *Examiner* acknowledges a call from "Hon. Thos. A. Hendricks, Vice President elect." To put the matter in this way seems to do the editor so much good that one would be churlish indeed to criticise the remark. But it is to be hoped that nobody will tell Mr. Wheeler.

The statement is made by the New York *Tribune* that there are, in that city, not less than 100,000 people in actual want of food. It is also apparent that the Western trade of New York is going rapidly to Boston, Philadelphia and Baltimore.

WONDERFUL SUCCESS
OF
DR. PAUL M. BRENAN
In the Treatment of Chronic Disease.
Positive Proof of his Wonderful Skill.
Testimony that Cannot be Contradicted.
Reliable Witnesses Testifying What he has Done for Them.
Perfect Cures where all other Treatment had Failed.
Crowds Coming from all Ports on the Sound to Visit Him.
The Following Certificates Speak for Themselves:

TO DR. PAUL M. BRENAN, Tremont House, Seattle—For the past year and a half I have been suffering from Nervous and General Debility, Kidney Disease, Loss of Flesh and Strength, dizziness in the head and a constant pain through the back and loins. I became so debilitated and broken down that I was unfitted for business. I have been to Victoria and all over the coast, under medical treatment for the past nine months, without receiving any benefit whatever, and had almost given up hopes of ever recovering, until I came under your treatment, about seven weeks ago. From the very first your treatment seemed to work like a charm, and I constantly improved from the beginning. I have gained 14 pounds of flesh, and I am now, thanks to your skillful treatment, perfectly well, and am able to return to my business on the snohomish. JAMES KING.
Seattle, March 31, 1877.

To the People: I have been troubled with chronic Nasal Catarrh for years, the disease being so aggravated that there was constantly an effusion of matter passing down into my throat behind the pallate and down through my nostrils.

My nose became depressed between the eyes and swollen on each side. I was told by physicians that it was a polypus; that some of the blood vessels were involved and that the removal would endanger my life by hemorrhage. I became so bad that I made up my mind that I must have immediate relief or die.

As a last resort I applied to Dr. Paul M. Brenan, who, after a moment's examination, determined what to do. He said the nasal bone was involved and diseased, and that there would have to be a port on of it removed. He at once removed the bone tumor containing the ulcer; also the diseased port on of bone and patucatory gland and cured the catarrh. I am now perfectly well and as free from disease as ever I was in my life.
THOMAS D. MURPHY.
Seattle, April 5th, 1877.

DR. PAUL M. BRENAN—*Dear Sir*: I take great pleasure in stating for the benefit of those who are afflicted with any chronic disease, that *I am now a well man*. For the past two years I have been under the medical treatment of different physicians, from which I have received no benefit. I have been suffering with general and nervous debility, a difficulty in my stomach, and at times dizziness and severe headache, almost incapacitating me for work. About three weeks ago I put myself under your care, and I can say with delight that I am cured and feel like myself again, after having partaken of your skillful treatment. To me *now*, labor seems a pleasure. I say this much, hoping it will be the means of attracting the suffering to you who can relieve and cure them.
Yours Truly, JOHN BALLARD,
Employed at Colman's Saw Mill.

[I will not publish any cures performed by me unless by the full consent of the parties.]
PAUL M. BRENAN.

Dr. Brenan can be consulted, free of charge, at his office at the Clarendon Hotel, from 10 to 12 A. M., and at rooms 6 and 7 in Corbett's Block, corner of Front and Washington streets, from 1:30 to 5, and 7 to 8 P. M.

Do zetti's military opera in three acts, "La Fille Regiment," was presented in a very satisfact style. "Marie," the protege of the famous "Twen First," was personated by the public's favorite, M Winston. Her acting and singing was sprightly vivacious, and, as usual, was received with g favor. Her rendering of "Salut a la France" the crowning triumph of the evening, and greeted with marked approbation. Miss Lefe assumed the role of "Marchioness," quite accep bly. Mr. Tilla personated the gay and dashing nio," accepted lover of "Marie." He threw m force and vivacity into the part, and his sing and acting was fully up to his usual standard excellence. Several of his solos were rende with much feeling and dramatic effect, and elici a measure of approval well merited. "Sulpic assumed by Edward Farley was all that could desired which is the highest compliment that be bestowed. CONCILIATION.

Notes of thanksgiving and joy come from the political party in Louisiana, in whose hands the government of that State has been placed by the influence of the Hayes Commission. By what means the triumph was gained which is celebrated with songs of praise to the Almighty, is familiar enough to all who have taken notice of the bloody events in Louisiana for the last ten years. Those who join in these demonstrations of thanksgiving now, have things all their own way. There is no opposition. The Republican party at last has been entirely suppressed. Peace reigns in Louisiana. So it did at Warsaw. But there are still some discordant notes. Reconciliation, the President and the country are informed, is not yet complete. In Mississippi one prominent Republican still threatens the public peace. As the "last man" of the opposition, he appears to be a terrible menace to the dominant party of the State. With praiseworthy desire to establish complete harmony, they have made an effort to kill him, and he lies grievously wounded in his house, watched and beset by those who desire to finish and make a clean job of the work of conciliation. In South Carolina also there is a little circumstance that ruffles the temper of the successful party and mars the prospects of perfect peace. A disposition is shown by the authorities of the United States to investigate the massacres which were perpetrated to place the State government in the hands that now hold it, and if possible, to punish the offenders. It is manifest that this is not the way to reconciliation. The President, therefore, is appealed to by advice, entreaty and remonstrance, to use his influence to stop the proceedings. Such action, he is informed, is necessary in order to carry out his policy of good will toward the South. To continue these prosecutions, what is it but to punish the leaders of the party that has wrought the deliverance of the South, for the methods by which that deliverance was accomplished? Therefore it is that the thanksgiving which is heard in Louisiana is changed into far other notes in South Carolina. An impatient and suffering people are asking why the last obstacles to peace are not removed. Is reconciliation a mere word, an utter mockery? What is all that has been done worth, if revenge is to be executed on a people for killing a few hundred of their opponents in order that they might suppress an adverse majority and get the government into their own hands? And what security is there for the continuance of peace and good will so long as troublesome persons who will persist in trying to maintain an opposing party are allowed to live in the States now rejoicing over their deliverance?

One thing more is to be done in name as it has been done in fact. It is notorious that equal suffrage has been suppressed in most of the Southern States. Taking courage from this fact, the leaders of the reaction against the results of the war and of reconstruction are now demanding loudly that the claim of the general government to enforce the rights conferred on the colored race shall be distinctly renounced. "Voting," says the New York *World*, "must be put back to where it was, as to the Federal government, *ante bellum* and in 1860." In the States South his has practically been done already; but it is announced that it must also be done in distinct terms, by renunciation on the part of the government of the power heretofore exercised to enforce the citizen's constitutional right. All legislation to carry out the constitutional amendments must be repealed, to further the cause of "self-government" in the States principally affected by them. Otherwise in those States in which the fifteenth amendment has been overridden, there will be continual attempts to enforce the laws under it, to the prejudice of the public peace. The signs are that on this question there is to be a direct issue before the country. For the attainment of this object Northern Democrats are making a tender of help. It would be unfortunate, indeed, to see these questions brought again into the bitter disputes of partisan warfare. Throughout the Northern States there is a general weariness of the contests of partisanship; but the old issue, if forced again, will be fully met. Conciliation is a very good thing. We were glad to see the President withdraw the troops from the State Houses; though it has seemed to us that he went too far when he encouraged the Commission he sent to Louisiana to undermine Packard's government and give the opposition to understand that they had the countenance of the administration. This, though it was none of the President's business to decide the controversy as to the Governorship, was done indirectly by him through the Commission which prevailed on Packard's supporters to abandon him. It was a short way out of a present difficulty. But to those who, while conceding that Hayes' title to the Presidency is legally perfect, are yet unable to see that it rests on better moral foundations than the title of Packard to the Governorship, it does not seem altogether just. Yet the withdrawal of the troops was a proper and necessary thing, not for conciliation merely, but to remove from offensive prominence the spectacle of governments supported palpably by military force. Conciliation ought to work both ways. There should be an element of reciprocity in it. It is not reassuring just at this time to receive notice from the organs of a powerful party that an attack will be made on the muniments of those rights conferred by the constitutional amendments and the legislation enacted under them. In that description of conciliation that demands everything and yields nothing, there is not much hope of satisfactory accommodation.

RAILROAD MATTERS.

It is well known that Seattle has never been pleased with the management of the Northern Pacific railroad. The town does not view with satisfaction the present and prospective movements of the company, and its citizens, at a public meeting held recently, presented their objections in a formidable bill of particulars. It was asserted, and the same was set forth in the resolutions adopted, that nearly all parts of Washington Territory have suffered great injury in consequence of the withdrawal in favor of the company of odd sections of the public lands from pre-emption and settlement; that the company has no right whatever to any lands north of Tacoma, where the terminus of the road has been established; that the route by the Skagit Pass, designated for the branch across the Cascade mountains, has been abandoned pretendedly for the Nachess Pass, which change the company has no legal right to adopt, and that, moreover, it is a notorious fact that the company does not intend to build the branch even by the pass last named; that in building a local coal road up the Puyallup the object is to obtain the full benefit of the land grant on said line, amounting to 793,600 acres, and to make the selections north of the adjusted limits on the earned lands of the main line, and that the whole country ought to use all efforts to defeat this attempt.

This looks like a formidable array of objections; but there may be a misunderstanding or mistake. It is probably one of those cases common in the construction of railroads in which local interests are in conflict with the main enterprise or design. We believe the company has not abandoned the idea of the branch over the mountains from Puget Sound. To secure first the main line by way of the Columbia river, is the way to make sure of serving the interests of all parts of the country concerned in the road. This will undoubtedly be attended to when the bill to continue the grant shall come before Congress. No true representative of Oregon's interests will let this pass unimproved. On this land grant depends depends nearly the last hope for aid. With an Olympia paper we agree that "it would be a matter of justice to the people of the northern coast for Congress to grant the road a subsidy in lieu of its land grant that would insure its early construction and at the same time leave the public lands open to settlement, but that is out of the question. The Central and Union Pacific stole the treasury so nearly empty that nothing is left for other deserving objects of internal improvement."

The San Francisco *Examiner* acknowledges a call from "Hon. Thos. A. Hendricks, Vice President elect." To put the matter in this way seems to do the editor so much good that one would be churlish indeed to criticise the remark. But it is to be hoped that nobody will tell Mr. Wheeler.

The statement is made by the New York *Tribune* that there are, in that city, not less than 100,000 people in actual want of food. It is also apparent that the Western trade of New York is going rapidly to Boston, Philadelphia and Baltimore.

In the Treatment of Chronic Disease.

Positive Proof of his Wonderful Skill.

Testimony that Cannot be Contradicted.

Reliable Witnesses Testifying What he has Done for Them.

Perfect Cures where all other Treatment had Failed.

Crowds Coming from all Ports on the Sound to Visit Him.

The Following Certificates Speak for Themselves:

TO DR. PAUL M. BRENAN, Tremont House, Seattle—For the past year and a half I have been suffering from Nervous and General Debility, Kidney Disease, Loss of Flesh and Strength, dizziness in the head and a constant pain through the back and loins. I became so debilitated and broken down that I was unfitted for business. I have been to Victoria and all over the coast under medical treatment for the past nine months, without receiving any benefit whatever, and had almost given up hopes of ever recovering, until I came under your treatment, about seven weeks ago. From the very first your treatment seemed to work like a charm, and I constantly improved from the beginning. I have gained 14 pounds of flesh, and I am now, thanks to your skillful treatment, perfectly well, and am able to return to my business on the Snohomish. JAMES KING.

Seattle, March 31 1877.

To the People: I have been troubled with chronic Nasal Catarrh for years, the disease being so aggravated that there was constantly an effusion of matter passing down into my throat behind the pallate and down through my nostrils.

My nose became depressed between the eyes and swollen on each side. I was told by physicians that it was a polypus: that some of the blood vessels were involved and that the removal would endanger my life by hemorrhage. I became so bad that I made up my mind that I must have immediate relief or die.

As a last resort I applied to Dr. Paul M. Brenan, who, after a moment's examination, determined what to do. He said the nasal bone was involved and diseased, and that there would have to be a portion of it removed. He at once removed the bone tumor containing the ulcer; also the diseased portion of bone and patucatory gland and cured the catarrh. I am now perfectly well and as free from disease as ever I was in my life.

THOMAS D. MURPHY.

Seattle, April 5th, 1877.

DR. PAUL M. BRENAN—*Dear Sir*: I take great pleasure in stating for the benefit of those who are afflicted with any chronic disease, that *I am now a well man*. For the past two years I have been under the medical treatment of different physicians, from which I have received no benefit. I have been suffering with general and nervous debility, a difficulty in my stomach, and at times dizziness and severe headache, almost incapacitating me for work. About three weeks ago I put myself under your care, and I can say with delight that I am cured and feel like myself again, after having partaken of your skillful treatment. To me *now*, labor seems a pleasure. I say this much, hoping it will be the means of attracting the suffering to you who can relieve and cure them.

Your's Truly, JOHN BALLARD,

Employed at Colman's Saw Mill.

[I will not publish any cures performed by me unless by the full consent of the parties.]

PAUL M. BRENAN.

Dr. Brenan can be consulted, free of charge, at his office at the Clarendon Hotel from 10 to 12 A. M., and at rooms 6 and 7 in Corbett's Block, corner of Front and Washington streets, from 1:30 to 5, and 7 to 8 P. M.

PICNICS.

RED MEN'S EXCURSION.—To-day the members of the several Tribes, I. O. R. M., will unite in the proper observance of Tammany Day, by parade, music, excursion, oration, etc. The committee has shown good judgment by selecting Willamette Grove Park as the place for holding the picnic. It is a beautiful oak grove, situated on the eastern bank of the river, only a few miles above this city. The underbrush has been cut away, the grove trimmed up and otherwise put in capital condition by Mr. Kaiser, who has charge of the park. Seats and tables have also been provided in abundance for the accommodation of the gay crowd of excursionists. A large dancing platform has been constructed near the bank of the river, and a number of swings put up. A commodious steamer has been chartered for the occasion, also the barge *Monarch*. Dancing and picnicking will be indulged in at the grounds until after the arrival of the second boat. Following this will be the oration and other exercises of the day. Mr. A. B. Hallock has been chosen grand marshal, and Sydney Dell, Esq., of Modoc Tribe No. 19, of Atlanta, Georgia, orator. Mr. George C. Sears will act as master of ceremonies. The Columbia is one of the grandest rivers in the world, and the scenery along its banks is unsurpassed in boldness, beauty and variety by any in America.

William and Frank Alexander have purchased the *Guard* of G. J. Buys, and have moved it to more convenient and commodious quarters up stairs in Underwood's brick.

Mr. J. B. Alexander was appointed justice of the peace for South Eugene precinct by the county court this week, to fill the vacancy caused by the resignation of G. J. Buys.

The pile driver of the railroad is now at this place, engaged in driving piling across the millrace, to take the place of the old ones, which have decayed so as to be unsafe for the cars to pass over.

The expenses of this county for the fiscal year ending June 30, 1877, will amount to about $27,000, as against about $12,000 for last year. Murder trials and building bridges being the cause of the increase.

Uncle Jake Gillespie's team becoming frightened at the cars, one day this week, took a turn, at a rather lively rate, up through Fifth street. The wagon was badly smashed up, but fortunately no one was hurt.

Mr. George J. Buys, who has been editing the Eugene *Guard* for several years past, starts for Palouse to-day, where he goes to get him a farm. He proposes to give up the journalistic field and become an honest Granger. May success attend you, George, in whatever business you engage, and may your new associations be as pleasant to you as yours has been to us.

A man who called himself Prof. Wyman was successful enough to bilk the people of this place out of considerable coin, on Monday evening last, by means of a show, at which he advertised that he would give away some valuable prizes. He had a full house, but the prizes proved to be some old brass rings and collar buttons that were not really worth carrying away; and the tricks that he performed were as old and stale as the profession itself.

THE
NATIONAL DISEASE.

Is it Curable?

THOSE WHO HAVE SUFFERED FROM THE various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, await the answer to this question with considerable anxiety. And well they may; for no disease that can be mentioned is so universally prevalent and so destructive to health as Catarrh. Bronchitis, Asthma, Coughs, and frequently serious and fatal affections of the lungs follow, in many cases, a case of simple but neglected Catarrh. Other sympathetic affections, such as deafness, impaired eyesight and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, bad enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

It Can be Cured.

IT CAN BE CURED. There is no doubt about it. The immediate relief afforded by SANFORD'S RADICAL CURE FOR CATARRH is but a slight evidence of what may follow a persistent use of this remedy. The hard, incrusted matter that has lodged in the nasal passages is removed with a few applications; the ulceration and inflammation subdued and healed; the entire membranous linings of the head are cleansed and purified. Constitutionally its action is that of a powerful purifying agent, destroying in its course through the system the *acid poison*, the destructive agent in catarrhal diseases.

Sanford's Radical Cure

IS a local and constitutional remedy, and is applied to the nasal passages by insufflation with Dr. Sandford's Improved Inhaling Tube, which accompanies each bottle free of charge; and internally or constitutionally, where, by its action on the mucous coatings of the throat and stomach, it frees the system from the poison generated by Catarrh. Until this good result is effected no permanent cure can be made. Thus the united action of this remedy is superior to all others or combinations of others.

Sanford's Radical Cure

HAS worked a revolution in the treatment of Catarrh; it has demonstrated beyond all doubt that this disease, even in its severest forms, is curable, and that comfort and happiness may be made to follow years of misery, years of suffering, by a persistent use of it. The method of treatment originated by Dr. Sanford, viz., the local and constitutional, by a remedy prepared by distillation, is the only one ever offered to the public that will bear the test of time.

Sanford's Radical Cure
Is Prepared by Distillation.

EVERY plant and herb that yields its medical essence to it is placed in an improved still and there mingled with a solvent liquid, which, by heat, is made to pass over into the receiver, bearing with it the healing essences or juices of these plants or herbs, free from every contamination, pure and colorless. Thus the active medical constituents of thousands of pounds of herbs may be condensed into a very small compass. In this way SANFORD'S RADICAL CURE is divested of all the nauseating, worthless features of all other remedies, while its curative properties are increased tenfold. It is positively the greatest medical triumph of the age.

Each package contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all wholesale and retail druggists throughout the United States. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston.

COLLINS'
VOLTAIC PLASTERS

An Electro-Galvanic Battery Combined with the Celebrated Medicated Porous Strengthening Plaster, forming the best Plaster for pains and aches in the World of Medicine.

ELECTRICITY

As a grand curative and restorative agent is not equalled by any element or medicine in the history of the healing art. Unless the vital spark has fled the body, restoration by means of electricity is possible. It is the last resort of all physicians and surgeons, and has rescued thousands, apparently dead, from an untimely grave, when no other human agency could have succeeded. This is the leading curative element in this Plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam and pine and the gums of the East are too well known to require description. Their grateful, healing, soothing and strengthening properties are well known to thousands. When combined in accordance with late and important discoveries in pharmacy their healing and strengthening properties are increased tenfold. In this respect our Plaster is the best in use without the aid of electricity.

TWO IN ONE.

Thus combined we have two grand medical agents in one, each of which performs its functions and unitedly produce more cures than any liniment, lotion, wash or plaster ever before compounded in the history of medicine. Try one. PRICE 25 CENTS

Sold by all druggists, and sent on receipt of 25 cents for one, $1.25 for six, or $2.25 for twelve, carefully wrapped and warranted, by WEEKS & POTTER, Proprietors, Boston, Mass.

OREGON.

Corvallis has committees appointed and arrangements made to celebrate the Fourth of July.

At the mills and warehouses they are sweeping the grain bins, because wheat is gold.

Wm. McGuire, of Silverton, an old citizen of that place, died a few days ago at the age of 70.

The State Grange meets at Salem the 4th Tuesday in May. Half fares only will be charged.

It is stated that a trail will be opened across the Cascade mountains this summer by the Minto Pass, near Mount Jefferson.

Mr. and Mrs. John Marks, of Lebanon, celebrated their golden wedding on the 8th inst. Mr. M. is 79; Mrs. M., 73. They have been in Oregon twenty-five years.

B. F. Burch, of Polk county, present superintendent of the penitentiary, claims the honor of having originated the "fifty thousand dollar limit clause" of the State constitution.

Found in perfect order, sound as a dollar, an apple, of the Yellow Newton variety on the first day of May, in plowing through the orchard, by a son of Wesley Howell, of Howell Prairie. So much for climate.

Messrs. Milne at Hillsboro are enlarging their flouring mill. They will have four sets of burrs. The mill now has orders from San Francisco and Victoria for 1,000 bbls of oatmeal daily, but cannot fill the demand.

Democrats got away with the whole ticket at the municipal election at Corvallis last Monday. J. M. Osburn was elected Mayor, beating J. B. Lee one vote. For Recorder, W. S. McFadden was elected, and W. T. Buffman for Marshal.

The *Reporter* says there is still a good deal of wheat in Yamhill. At Amity and Sheridan several parties have clubbed together and made up a lot of 8,000 bushels. Another lot of 2,300 bushels is sold by George Olds; several lots of 1,000 bushels each are reported, and very many small parcels.

J. W. Kirkland, of Rickreal, has lately sold his farm, near Dixie, of about 350 acres, for $14,000, or at the rate of $40 per acre. He has since bought a farm of 200 acres of B. F. Whiteaker at the same price per acre. This is a rich farming district and farms sell at a good figure in the Rickreal valley.

A correspondent of the Albany *Democrat* who has been through all the fisheries on the Columbia river, says: Should the catch this year enable all of these establishments to run to the full limit of their capacity, 1,135,000 cases, or 54,480,000 cans of fish will be the product, aside from the barreled fish, which are put up in considerable quantities.

Albany *Democrat*: G. W. Huber, of Valparaiso, Indiana, arrived in this city last Tuesday evening. Mr. Huber has come among us for the purpose of learning something of the country, and if he forms a favorable impression of our climate, &c., a number of families from Indiana will accompany him when he returns to Oregon, which will be in a few months.

A new outlet for the wheat of Union county is suggested. The Lewiston *Teller* says that with a reasonable amount of expenditure the Grand Ronde river can be so improved as to admit of boats and barges taking wheat at the lower end of Grand Ronde valley and discharging the same either at the mouth of Grand Ronde river or at Lewiston, or even at the mouth of Snake or at Celilo.

The family of Jacob Bults, near Dilley, Washington county, was terribly alarmed a few days since. Syrup was eaten; and after all had partaken, some suspicious looking particles were noticed in it which were pronounced to be glass. Great was the alarm, and remedies were in demand. Subsequently it was discovered that the particles were simply crystalized sugar, though not till next day.

F. A. Chenoweth, President, publishes the following: The 17th of May, 1877, is fixed upon by the directors to break ground for the Corvallis and Yaquina Bay railroad. We desire to meet the citizens of Benton, Linn, Lane, Polk and Marion counties, gentlemen and ladies, at the city hall at Corvallis, on the 17th inst., at 10 o'clock A. M., at which time we will have a basket dinner, some talk, appropriate ceremonies, and then breaking of ground. Ladies—the friends of the road, will please prepare such refreshments as they think will be appreciated by laboring men on the occasion. Don't fail to be present.

A correspondent at the Dalles writes that a party from that place will ascend Mount Hood on the 4th of July, prepared with materials to kindle a light which they hope will be visible that night at all places in sight of Mount Hood. They will light their materials at 9 P. M. Rockets will also be sent up. Instruments will be provided for taking another measurement of the altitude of the mountain. Messrs. Broyles and Miller, of Tygh valley, have volunteered to remain on the summit and manage the illumination. It is expected that many eyes will be turned in that direction at the hour appointed on the night of the 4th.

W. S. Walker, president of Philomath College, Benton county, requests the publication of the following programme for commencement week: On Saturday, June 16th, meeting of board of trustees; Sunday, 17th, Baccalaureate address by the president; on the evening of Monday, the 18th, entertainment by the preparatory school, Miss Lawrence, principal; Tuesday evening, 19th, entertainment by the Philomathic Literary Society; Wednesday, June 20th, commencement; Wednesday afternoon or evening, lecture by Judge Boise, of Salem. The commencement exercises will be in the grove west of Philomath. It is a very pleasant place, and will be well fitted up to accommodate the great assembly expected there to enjoy the literary feast, the picnic dinner, and the music furnished by one of the best bands in the State.

THE TERRITORIES.

It is rumored that the steamer *Otter*, at Puget Sound, has been bought by Captain Starr for $5,250.

The rivers having their sources in Mount Ranier and emptying into Puget Sound are rising rapidly this week.

At Lewiston wheat has sold for 92 cents. It ought to bring more, since it can be carried to Portland for 24 cents. What is out of joint?

The hop crop in Puyallup and White river valleys will be something immense this season. A man named Van Doran, of White river, has 21 acres of vines.

The sportful savage is at Lewiston with his fast horses, challenging horse jockeys of the superior race to bring on their stock and put up their coin for trials of speed.

The precious metals are so scarce in the Black Hills that counterfeiters have commenced their work there on a large scale. Already a great deal of bogus coin has been manufactured.

A party of miners are on their way to work the placer diggings situated near the Copper Mountain in the Snake river range in Idaho. The whole country is a vast deposit of copper ore, of excellent quality, intermixed with streaks of gold-bearing quartz. The placers pay from $3 to $4 per day.

The amount of water passing over the Horse Shoe Fall (Niagara), has been estimated at one hundred million tons an hour, representing a force of sixteen million eight hundred thousand horse-power, an amount which, if it had to be produced by steam, would necessitate an expenditure of not less than two hundred and sixty-six million tons of coal per annum.

Thomas Carlyle has written a strong letter protesting against the course of the agitators in England who would plunge that country into the war. He declares that the hostile feeling against Russia is the result of ignorance and prejudice.

The Turkish minister at Washington has received a great number of applications from young physicians who wish to go to the seat of war as surgeons in the Turkish army.

Auction Sale of Wool.

SAN FRANCISCO, May 11.—The third auction sale of wool by H. M. Newhall & Co., for account of Falkner, Bell & Co., was held this morning. Unsold lots at last sale, with the exception of the new clip, only 40 bales of which were then offered, were closed out privately within 48 hours of the last sale at rates established by the auction. The wools offered to-day were therefore all fresh consignments. The catalogue comprised 41 lots, of which 31 were sold and the remainder withdrawn for want of satisfactory bids. The sale opened with an offering of Hall's clip of Southern wools, comprising 376 bales, and the entire line was sold at 16¼@14½c for heavy to fair. The first two lots, consisting of over 300 bales, being taken by Koshland Bros. at 12½c and upwards. The extremes paid for Southern clips varied from 18¼ to 20c, though most of the lots ranged from 12½ to 18½c. The Parrell clip of 53 bales choice ungraded Northern sold at 20½c. The total quantity catalogued was 1,855 bales, of which 1,624 bales were sold, and 331 were withdrawn. The sales were made chiefly for Eastern account, and the principal buyers were Koshland Bros, Whitney and Webster, Flint, Ball & Julian; Rathbone, VanBlascom & Abbott, Lee and Hall Bros. Another sale will be held in a week or ten days, one clip of 250 bales having been already listed.

A leading grain circular says the recent excitement has entirely disappeared and business is setting down into the ordinary channels. The recovery in the value of wheat acquired at the commencement of the week has been partially lost, especially foreign, but the country markets for the past two weeks for English has nearly supported the extreme advance. Millers, however, have bought sparingly and trade has been without animation on spot since Tuesday. Only a limited business was transacted at about 2d per cental decline for wheat. Maize declined 3d to 6d to-day. Wheat was in good demand, closing with an upward tendency. Flour in moderate request at unchanged prices. Maize in fair demand at 6d decline.

GENERAL NEWS

[BY TELEGRAPH TO THE OREGONIAN.]

A Turk Talks to the Tribune.

NEW YORK, May 12.—The Tribune [illegible] following: Gen. [illegible] Turkish [illegible] arms in this country, in talking with a [illegible] reporter about the war in the [illegible] mitted that Mohammedans persecuted [illegible] wronged Christians years ago, [illegible] ings this caused are gradually dying [illegible] friendly and patriotic spirit was [illegible] among the people of all creeds in Turkey [illegible] was the policy of the Czar's government [illegible] keep alive old discord and in [illegible] Bulgarians and Greeks the lands of [illegible] medans.

Germany's Interest in the War.

NEW YORK, May 12.—An interview [illegible] Geo. H. Boker, U. S. minister to [illegible] Germany is stronger than ever before [illegible] better fitted for war, but this has been [illegible] plished at the cost of prosperity. The [illegible] of the army is too thoroughly [illegible] [illegible] will be out of the question for a general [illegible] two. Germany could not carry out [illegible] had Russia been at peace, for [illegible] would not hear of it, and it is a fact that [illegible] his firmness and decision, Germans [illegible] have declared war long ago. Hence, [illegible] to effectually dispose of Russia, Germany [illegible] obliged to wait until that power [illegible] volved with Turkey, and to effect [illegible] German ambassador spared no pains [illegible] upon Russia the fact that Germany [illegible] not interfere with any programme [illegible] would undertake to carry out.

Government Financial Operations.

NEW YORK, May 12.—The *Post* says [illegible] conference of Secretary Sherman with [illegible] the bankers who constitute the [illegible] membership of the syndicate having [illegible] of the four and a half per centum bond [illegible] gotiation: "Nothing was done to [illegible] contract which expires the 30th of June, [illegible] modify it. The syndicate agreed to [illegible] and a half millions of four and a [illegible] centum bonds this month, and two [illegible] half millions in June, and pay gold [illegible] same, with the understanding that [illegible] twenty six per centum bonds shall be [illegible] to offset this sale. The gold so received [illegible] said, will either be held for resumption [illegible] poses in 1879, or, if sold, legal tender [illegible] These notes will be held permanently [illegible] demption of fractional currency. [illegible] tional currency has in a good measure [illegible] destroyed, and will never come in for [illegible] tion, so that legal tenders taken in [illegible] practical purposes, be the same as if [illegible] It is understood that the Secretary [illegible] plates the sale of 5,200,000 of four and [illegible] half per centum bonds each month, and [illegible] the gold to be sold, or, if it is sold [illegible] tender notes, that the latter will be [illegible] redeem fractional notes to the extent [illegible] fractional notes are outstanding.

Religious Intelligence.

PHILADELPHIA, May 11.—At the afternoon session of the Council, Reformed Episcopal Church delegates were appointed representatives to the General Assembly of the Presbyterian church, to the Convocation Free Church of England, to the General Synod of the Reformed Church, to the General Assembly of the Presbyterian Church South, to the [illegible] Conference, Canada, and to the General [illegible] Conference in the United States. The [illegible] mittee on constitution and canons [illegible] a report suggesting certain alterations, and [illegible] words parish council were substituted for [illegible] visory committee.

The Telephone.

NEW YORK, May 12.—There was a private exhibition of Bell's Telephone at St. [illegible] hotel before invited guests to-night. [illegible] sations and music between New York [illegible] Brooklyn were perfectly transmitted, [illegible] elicited surprise and delight.

The Grasshopper Killers.

TOPEKA, May 11.—Professor Riley, chief of the National Entomological Commission, [illegible] just closed a three weeks examination [illegible] Texas and Kansas of grasshoppers, and [illegible] submitted his report to the Governor. [illegible] says that throughout the largest part of [illegible] the battle is already fought and won.

The N. Y. Times on Silver.

NEW YORK, May 12.—The *Times* editorial says that it is reported Kelley hopes the silver dollar men will have balance of power in the next house. He thinks a number in [illegible] party will refuse to go into caucus unless they are prompted by candidates who are in favor of contracting the legal currency. With all respect to Kelley he is [illegible] abominable on this subject. He is bitter [illegible] disappointed; thinks the country gone to [illegible] dogs or refusing to monetize silver. [illegible] judgment on every point connected with silver is worth but little, and yet it must not be forgotten that abler and less honest men are working in the same direction, and the owing to the secular position of parties in the House of Representatives the silver ring is quite capable of making all the capital [illegible] for its schemes. People who do not care to have the finances of the country meddled with by the introduction of silver as legal tender will do well to watch their representatives. The silver scheme in its essence is [illegible] any intended to give debtors a new chance to cheat creditors, and in this naked form [illegible] ought to be condemned by the country.

More Trouble for Trenor W. Park.

NEW YORK, May 12.—Two new suits have been brought against Trenor W. Park and partners in connection with the Emma Mine. First by Warren Hussey, of San Francisco, who came here as principal witness in the English suit. Hussey says developments of the recent trial opened his eyes and he saw he had not been equitably dealt with. [illegible] that, while Park was buying Emma Mine stock from him for $50 currency, he was selling it in London for $117 gold. The usual several other interesting details are set forth in Hussey's complaint, which has been served on Park and his partners. The other suit is brought by Robert B. Chisholm on the same grounds, including interest accrued on amounts claimed. Plaintiffs seek $6,000 [illegible] Lyon will soon bring actions for [illegible] amounts against Park and his former attorney Senator Stewart.

Gold Discoveries in Central America.

New York advices from Guatemala state that President Barrios, while on a tour of inspection in the district of Izabal, found nuggets of gold in abundance on the river Dulce and Lake Izabal, both navigable.

Aristides Withdrawn.

NEW YORK, May 12.—It is believed by turfmen that Aristides will not take part in the coming races at Louisville on the 24th, on account of having met with an accident in his exercise on Monday.

Notable Death.

SCHENECTADY, N. Y., May 11.—Dr. Taylor Lewis of Union College died last night, aged seventy-six.

Tweed's Release Less Probable.

NEW YORK, May 12.—The *Express* says the attorney-general had concluded that the statement of facts furnished by Tweed cannot be used in carrying on prosecutions against the old ring thieves; that he has much information reserved which he refuses to disclose to save certain of his friends. The attorney-general has returned the papers to Tweed and has declined to release him.

Food Shipments.

NEW YORK, May 12.—Four steamships sail to-day and to-morrow for Europe with nearly 100,000 bushels of grain, and the quantity of fresh beef will not be far short of 1,000,000 pounds, while of canned goods, pork, salt beef, bacon, cheese, butter, lard and other provisions, the aggregate is very large. So anxious appear to have the British people become that the sighting of vessels so loaded at any point along their coast is made a subject of special telegram to the London newspapers.

Money and Stocks.

NEW YORK, May 12.—Silver bars, 120½; greenbacks, 119 gold; silver coin, 5½ discount;
